

Maiden Gully Primary School gets help with a “facelift”

A donation for just over \$1300 was just what Maiden Gully Primary School needed to get their new landscaping underway. Described as a “facelift” for the school the landscaping will repair damage done to gardens by the recent droughts and start afresh.

Jan Dillon, Vice President School Council said that “With a new fact lift comes a new attitude. We hope that over the years we welcome the community into the school while teaching the children about pride and ownership.”

Items such as gardens are sometimes considered as non-essentials for a school and without extra funding many of them would not get off the ground. As Jan Dillon also said: “Wonderful community-minded organisations such as Bendigo UFS pharmacies are of great importance to the school.”

Michael Fleming, CEO of the Bendigo UFS said “As a not for profit community enterprise one of our key objectives is to support community initiatives with a health and wellbeing focus.”
